Testing

Template Method Pattern

```java
JdbcQueryTemplate<Book> template = new JdbcQueryTemplate<Book>() {
    @Override
    public Book mapItem(ResultSet rset) throws SQLException {
        Book book = new Book();
        book.setId(rset.getLong("ID"));
        book.setTitle(rset.getString("TITLE"));
        book.setRating(rset.getInt("RATING"));
        return book;
    }
};
```
